Recycling facility

Recycled post-consumer plastic

Molding and finishing

Recycled

The purpose of our recycled planters is to give new life
to products that have already had a useful life in another form.

Phoenix and Rise planters contain more than 80% post-consumer material by weight.

Phoenix

Phoenix

PHOENIX

- Phoenix planters give new life to products that have already had a useful life.
- Very resistant to scratching because ABS plastic absorbs paint much better than most plastics.
- Caster platforms, liners and sub-irrigation are available for key items.
- Available in matte or high shine finishes.

All RAL- and many Pantone colors shipped within 5 business days*.

* Except luminous and pearl colors.
* Exceptional orders in consultation.

Corner trays

The NextGen corner tray is the perfect solution for every design where a corner is needed for complete NextGen Living Wall coverage. Available for the PT-20-1312, PT-50-1312, PT-75-1312 and PT-100-1312 trays. The corner tray can fit 3 hydro- or soil plants.

NextGen tray PT-20-1312

The PT-20-1312 is a flexible system for curved walls, pillars and other custom sizes NextGen Living Walls. This tray fits 1 13/12 hydro or 14 cm soil plant.

Outdoor

NextGen Living Walls can be installed for outdoor use as well. A special cover has been developed for the PT-100-1312 tray in order to keep the plant fixed in their original grow pot in the tray in case the environment recommends this.

Several irrigation methods are available, including manual, semi-automatic and fully automatic.

— Irrigation system

We offer special LED lights that have an UL approved LED driver.

LED Luminous Flux (LM)	3200 Lumen
Colorrendering index (CRI)	80 RA

Distance in meters

BEAM ANGLE	RANGE	OPTIMAL
60 degrees	1.5-4.5	3
24 degrees	3-6	4,5
15 degrees	4.5-7.5	6

Special LED light is available in different beam angles to achieve sufficient light at all levels of the NextGen Living Walls.

Room divider

ONE-SIDED AND TWO-SIDED ROOM DIVIDER

- Available in one-sided and two-sided models.
- System built of all NextGen Living Wall components.
- Suitable for both hydro- and soil plants.
- Standard 100 cm trays for 13/12 hydro or 14/14cm soil plants.
- Easy to install and easy to water.
- Massive green impact.

Item	Definition	Dimensions
NGRD-1S-10457170	Room divider one-sided	104 x 57 x 170 cm
NGRD-2S-10457170	Room divider two-sided	104 x 57 x 170 cm
SP-40160	Side panel for one-sided	40 x 160 cm
SP-50160	Side panel for two-sided	50 x 160 cm

Unit comprised of Metal Stand, 4 wheels, Base Cover, Hardware, Grids, Trays, Drain Hoses and Leaf Screens.

One-sided and two-sided room divider

Plant Portraits

Plant Portraits

PLANT PORTRAITS

- Plant Portraits are made of environmentally-friendly and durable eco-synthetic material.
- Easy to install and simple to use.
- Optional plant wicks and space savers available.
- Available in matte and high shine finishes.

All RAL- and many Pantone colors
shipped within 5 business days*.

* Exceptional orders please in consultation.

Natural Walls

Our Natural Walls are made using a variety of preserved materials from the natural world. Only natural products that are harvested sustainably are selected. Our Natural Walls require no light, water or maintenance to retain their natural beauty.

BioMontage®

BIOMONTAGE

BioMontage is a unique concept to bring the nature into your living room or workplace. BioMontage is a biophilic design product that requires no light, maintenance or water. Also available as room divider, double- or single sided.

NATURAL MATERIALS

Lime green reindeer moss

Medium green reindeer moss

Forest green reindeer moss

Vivid green pole moss

Deep green long moss

BIOMONTAGE

Our reindeer moss grows abundantly in vast Scandinavian forests and is harvested by hand in a way that ensures perfect renewal of the plant. The moss is preserved naturally and is 100% biodegradable and is also fire retardant. Reindeer moss is a very efficient acoustic modulator, making it a perfect biophilic design element in public places and offices.

Our light stone panels are made from a combination of natural stone and resin, which is lighter and more manageable than raw stone. These naturally attractive panels come in two finishes which complement any interior: Prairie brown and mountain grey.

Our sustainable Yellow Poplar tree bark comes from the Appalachian Hardwood Region of the U.S. The poplar wood is used for furniture production but the bark has limited practical uses. BioMontage® helps prevent the bark from becoming waste. Our bark also has excellent acoustic properties.

Harvested sustainably by hand in the forests of France, and preserved naturally, our vivid green pole moss presents a three dimensional, natural texture in a distinctive, long lasting color.

When the Coconut tree can no longer produce its famous fruit, the tree is harvested and used in building construction and furniture production. The "Coco Bark," has very few uses and is often discarded. We hand-craft the small pieces into beautiful natural panels that fit perfectly into our BioMontage® system.

Harvested in a natural, sustainable way in the forests of Turkey and preserved naturally, Long moss is an elegant, cost-competitive alternative to flat Moss. Long moss holds its deep green color very effectively in virtually any interior environment.

The Mangium tree is used primarily in furniture production. Branches are periodically cut from the tree and could easily become waste. We slice and trim the branches into small tiles, then combine the tiles to create a stunning natural mosaic which is an exciting new addition to the BioMontage® range.

Prairie brown light stone

Mountain grey light stone
